

Club meeting July 7th 2026

Members attending - 28 meeting commenced 8.00

1. Membership 185
2. Finances - Only pay for grass cutting
3. After schools finished for summer, students assembled on our pits area in the park drinking & leaving cans & broken bottles littering the area. Members cleared as much as possible but glass shards still remain. It was reported to police & schools but no action was taken.
4. Events - The Northern Area 2 day event was held but with no support from other N.A. clubs. Martin suggests that we do not undertake organising this event in the future.
5. Next event is the chairman's fun fly vent on 19th July
6. Some members have attended the park on 'no fly days' - should have checked before hand.
7. Discussion took place on the suggestion that we have a limit on number of flyers allowed at any one time. Points raised a) we have been flying over 50 years with no problem. B) Could not agree on 'how many'. c) Control would be a problem. D) Only 28 out of 185 members could be bothered to attend, so 157 did not care how many flew. The consensus was that we do not change so it would be pointless holding an EGM to vote.

Meeting close 8.26
